

AIRMAIL

Dr. D. M. Bonner;  
Yale OBL  
New Haven, Conn.

Dear Dave:

Could you arrange to send me lyophil copies of Boivin's E. coli strains "C1" and C2, at your earliest convenience? As you know, Ed and I had pretty well thrown up the problem, but there are some preliminary experiments I did in 1947 that I would like to look into again. Thanks very much,

Sincerely,

Joshua Lederberg
